

Accessing SMART Notebook 17 Math Functions

To find the math add-ons, click on the add-ons  at the top of the page. The equation editor  will allow you to insert symbols such as square roots and power functions. You need a keyboard to add the numbers and letters so access the one found in SMART Ink. To find it, press the toolbox  and then the text conversion icon . Finally click the keyboard  at the bottom right of the window. To insert an equation, click on the add-ons  and then press the 'insert equation' icon. .
